"Protect your prints-Show them at their best"
"Do not expose to direct SUNLIGHT or HEAT"

Just lift transparent plastic film gently to within inch of the edge.
The transparent plastic film holds photos firmly in place and gives them complete protection. Place photos on the chemically treated page. Replace plastic film and smooth it out by hand. (The horizontal lines will help you place photos properly.)

This is Ted
and his Dad.
Would you
please return
it sometime
because it's
the only one I
have. Thanks.
